

28th & 29th June 2023 | NEC, Birmingham, UK

One Event, Four Connected Industries

Discover the latest technologies in advanced materials, technical ceramics, batteries and EVs.

INSIDE: Exhibitor Listings, Floorplan, Product Listings, Speaker Directory Conference Agenda & Visitor Information

Sponsored by:

Conference Introduction

Olivia
Ryan-Hill
Conference
Director
Event
Partners
Ltd

I am delighted to introduce our four exciting conference programmes for 2023. This is where industry heavyweights and pioneering newcomers discuss the pivotal strategic and technical issues and opportunities that are impacting businesses across the value chain; from end users to start ups and large scale manufacturers to senior government representatives. These four sectors together represent billions of pounds of opportunity and market growth for both UK and international businesses so this is not one to be missed.

The Battery Cells & Systems Expo conference is where innovation takes the spotlight. Dive into this dedicated theatre focused on battery development, exploring the latest breakthroughs in cell chemistry, manufacturing, pack design, charging infrastructure, testing, recycling, and second life. Meanwhile our Vehicle Electrification conference theatre takes on the broader challenges of electrification, covering sustainability, cost profiles and how to increase EV uptake. You can also engage in enlightening sessions on heavy duty electrification, powertrain design, electric motors, and power electronics.

The concurrent The Advanced Materials Show and The Advanced Ceramics Show theatres deliver an exceptional blend of insights. Embark on two tracks and two days of sessions that tackle the frontier of materials design, usage and process innovation. Discover the latest advancements in composites, coatings, lightweighting materials, sustainability, and additive manufacturing. Attendees can expect engaging case studies from aerospace, automotive, construction, and semiconductor materials usage and the most promising materials that are set to transform the way we work.

Immerse yourself in a dynamic atmosphere of interactive panel discussions, talks, and lively on-stage interviews - your questions and ideas will find a voice among your industry peers. So with no further ado, read on to discover our programme and this unique platform for a vibrant and productive exchange of ideas, as these booming sectors continue to set the stage for remarkable growth in the years ahead.

Claire Miller, Mobility & Energy Advisor, formerly Director of Tech & Innovation **Octopus Electric Vehicles**

Session: Hurdling the Sustainability, Cost, Range and Charging Barriers to EV Uptake - Day 1 | 10.15 - 11.05 | **Track 2** ⚡

Ines Miller, Team Lead, Battery Cells E-Mobility, **P3**

Session: Li-ion Alternatives and Alternatives to Li-ion: Expediting Technology Readiness Level from Research to Deployment
Day 1 | 15.25 - 16.20 | **Track 1** ⚡

Dr. Peter Miller, Chief Engineer - Batteries, **UTAC**

Session: What are the New Frontiers for EV and Battery Safety Innovation? - Day 2 | 13.55 - 14.55 | **Track 1** ⚡

Roger Moorhouse, Product Engineering Manager, **Rimac Technology**

Session: Innovating for the EV Powertrains of the Future - Day 2 | 13.55 - 14.55 | **Track 2** ⚡

Dr. Manlio Morganti, Lead Thermal Engineer, **Jaguar Land Rover**

Session: Balancing Conflicting Battery Pack Design Considerations - Day 2 | 10.15 - 11.05 | **Track 1** ⚡

Dr. Iain Mosely, Director of Power Electronics, **Nyobolt**

Session: Technology Transfer - High Performance Transport Electrification - Day 1 | 15.25 - 16.20 | **Track 2** ⚡

Rob Munro, Innovation Management Consultant, **Institute for Manufacturing**

Session: How Are Materials Designers Developing Future Proofed, Planet-Friendly Materials Today? - Day 2 | 15.30 - 16.30 | **Track 1** 

Bernhard Münzing, Sales Director, **The Sixth Element**

Session: Harnessing Advanced Ceramics in Electronic and Electrical Applications - Day 2 | 15.30 - 16.30 | **Track 2** 

Prof. Jacqui Murray, Chief Operating Officer, **National Manufacturing Institute Scotland**

Session: How to Improve, Expedite and Scale Up Battery Manufacturing - Day 1 | 13.55 - 14.55 | **Track 1** ⚡

N

Dr. Vishal Nayar, Business Development Manager, **UKBIC**

Session: How to Improve, Expedite and Scale Up Battery Manufacturing - Day 1 | 13.55 - 14.55 | **Track 1** ⚡

Torkel Nord Bjärneman, Business Development Manager, **Graphmatech**

Session: Paving the Way for Hydrogen-Based Clean Energy with Advanced Materials - Day 1 | 15.30 - 16.30 | **Track 1** 

P

Dr. Andy Palmer, Chair, **Inobat**

Session: EV Champions in conversation: with Dr. Andy Palmer - Day 1 | 11.30 - 12.30 | **Track 2** ⚡

Darshak Parikh, E-Mobility Lead, **DNV**

Session: Understanding the Cost Profile of EV Technology as it Matures - Day 2 | 15.25 - 16.20 | **Track 2** ⚡

Alec Parr, Sales Director, **Lifeline Fire and Safety Systems Ltd**

Session: What are the New Frontiers for EV and Battery Safety Innovation? - Day 2 | 13.55 - 14.55 | **Track 1** ⚡

Dr. Denis Pasero, Product Commercialisation Manager, **Ilika**

Session: Battery Manufacturing Infrastructure: Gathering the Key Building Blocks - Day 1 | 11.30 - 12.30 | **Track 1** ⚡

George Paterson, Product Development Director, **Cosworth**

Session: Technology Transfer - High Performance Transport Electrification - Day 1 | 15.25 - 16.20 | **Track 2** ⚡

Rob Peeling, Technical Services Director, **Britest Limited**

Session: The Latest Manufacturing Innovations for Advanced Ceramics - Day 1 | 14.00 - 15.00 | **Track 2** 

Laurent Petithuguenin, Managing Consultant, **ICF**

Session: Battery Manufacturing Infrastructure: Gathering the Key Building Blocks - Day 1 | 11.30 - 12.30 | **Track 1** ⚡

John Phipps, Technical Sales Manager, **3M**

Session: Lightweighting without Compromising on Eco, Cost or Performance Credentials - Day 2 | 14.00 - 15.00 | **Track 2** 

Marius-Dan Popa, Director EMEA, **Citrine Informatics**

Session: How to Harness Digital Technology to Reduce Costs and Expedite Innovation - Day 2 | 11.30 - 12.30 | **Track 1** 

Isabel Potestio, Global Director of Sales and Marketing, **Lithoz**

Session: The Latest Manufacturing Innovations for Advanced Ceramics - Day 1 | 14.00 - 15.00 | **Track 2** 

Session: Using Additive Manufacturing to Shorten and Simplify Component Production Cycles - Day 2 | 10.00 - 11.00 | **Track 2** 

R

Bhavika Ramrakhyani, Head of Materials, **Costain Group**

Session: Finding New Ways to Develop Construction Materials in a Sustainable and Cost-Effective Ecosystem - Day 2 | 14.00 - 15.00 | **Track 1** 

Helmut Ringdorfer, Marketing Manager for Advanced Ceramics Market, **Imerys**

Session: Showcasing the Diverse Property and Application Potential for Technical Ceramics - Day 1 | 11.35 - 12.35 | **Track 2** 

David Roberts, Chair, **TAE Technologies** / Founder, **Tevva**

Session: Making EV Technology Energy Dense Enough for Heavy Duty and Off Highway Electrification - Day 2 | 10.15 - 11.05 | **Track 2** ⚡

Arnaud Roux, Sales Manager, **3DCeram**

Session: Using Additive Manufacturing to Shorten and Simplify Component Production Cycles - Day 2 | 10.00 - 11.00 | Track 2 

S

Dr. Philipp Seidel, Principal, **Arthur D. Little**

Session: Understanding and Reducing the Environmental Impact of an EV from Raw Material to End of Life - Day 1 | 13.55 - 14.55 | Track 2 

Dr. Pavel Shashkov, Director, **Cambridge Nanolitic Limited**

Session: Lightweighting without Compromising on Eco, Cost or Performance Credentials - Day 2 | 14.00 - 15.00 | Track 2 

Dr. Alf Smith, Senior Representative, **Forge Nano** / Technical Director, **Semitronics**

Session: Transforming Battery Technology with Innovative Materials Design and Processing - Day 1 | 14.00 - 15.00 | Track 1 

Dr. Andrew Smith, Head of Materials Development, **Forterra PLC**

Session: Finding New Ways to Develop Construction Materials in a Sustainable and Cost-Effective Ecosystem - Day 2 | 14.00 - 15.00 | Track 1 

Dr. Faye Smith OBE, Northern Powerhouse Materials Specialist, **Department for Business and Trade, UK Government**

Session: How to Improve Supply Chain Sovereignty and Resilience - Day 1 | 10.00 - 11.05 | Track 1 

Claire Spooner, Deputy Challenge Director, Faraday Battery Challenge, **UKRI**

Session: Leadership Discussion: How Can Europe Overcome Growing EV and Battery Supply Chain Issues? - Day 1 | 10.15 - 11.05 | Track 1 

Robert Stanek, Board Member and Senior Advisor, **P3**

Session: Leadership Discussion: How Can Europe Overcome Growing EV and Battery Supply Chain Issues? - Day 1 | 10.15 - 11.05 | Track 1 

T

Felicity Tarrant, Materials Engineer, **Alpine F1 team**

Session: Lightweighting without Compromising on Eco, Cost or Performance Credentials - Day 2 | 14.00 - 15.00 | Track 2 

Dr. Mandar Thakare, Associate Director, **bp ICAM**

Session: How to Improve Supply Chain Sovereignty and Resilience - Day 1 | 10.00 - 11.05 | Track 1 

Milan Thakore, Market and Strategy Manager, **Green Lithium**

Session: Battery Manufacturing Infrastructure: Gathering the Key Building Blocks - Day 1 | 11.30 - 12.30 | Track 1 

Selin Aria Tur, VP Advanced Technologies and Innovations, **CNH Industrial**

Session: Making EV Technology Energy Dense Enough for Heavy Duty and Off Highway Electrification - Day 2 | 10.15 - 11.05 | Track 2 

Alex Tylee Birdsall, VP - Powertrain Engineering, **Harbinger**

Session: Innovating for the EV Powertrains of the Future - Day 2 | 13.55 pm - 14.55 pm | Track 2 

V

Prof. B. Vaidhyanathan, Professor of Advanced Materials & Processing, **Loughborough University**

Session: Showcasing the Diverse Property and Application Potential for Technical Ceramics - Day 1 | 11.35 - 12.35 | Track 2 

Nicolas Vallin, Battery Portfolio Manager, **Dassault Systemes**

Session: How to Improve, Expedite and Scale Up Battery Manufacturing - Day 1 | 13.55 - 14.55 | Track 1 

David Voxlin, Director of Sustainability & Behaviour Change, **SKIM Group**

Session: Hurdling the Sustainability, Cost, Range and Charging Barriers to EV Uptake - Day 1 | 10.15 - 11.05 | Track 2 

W

Jonathan Wanless, Lifecycle Assessment Expert, **Polestar**

Understanding and Reducing the Environmental Impact of an EV from Raw Material to End of Life - Day 1 | 13.55 - 14.55 | Track 2 

Dr. Josey Wardle, Innovation Lead - ZEV Infrastructure, **Innovate UK**

Session: EV Charging: What is Needed to Make it Accessible, Safe, Fast and Economical? - Day 2 | 15.25 - 16.20 | Track 1 

Dr. Tom Whitehead, Head of Machine Learning, **Intellegens**

Session: How to Harness Digital Technology to Reduce Costs and Expedite Innovation - Day 2 | 11.30 - 12.30 | Track 1 

Dr. Neil Witten, Innovation Lead - Advanced Materials, **Innovate UK**

Session: How Are Materials Designers Developing Future Proofed, Planet-Friendly Materials Today? - Day 2 | 15.30 - 16.30 | Track 1 

Sian Wyles, Lead Engineer - Battery Integration, **Williams Advanced Engineering**

Session: Balancing Conflicting Battery Pack Design Considerations - Day 2 | 10.15 - 11.05 | Track 1 

Prof. Andy Wynn, CEO, **TTIP Global**

Session: Has the Value Proposition for Advanced Materials Changed as a Result of Resource, Budgetary and Environmental Pressures?
Day 1 | 11.35 - 12.35 | Track 1 

Y

Mustafa Yusein, Principal Battery Engineer, **Rimac Technology**

Session: Balancing Conflicting Battery Pack Design Considerations - Day 2 | 10.15 - 11.05 | Track 1 

Z

Dr. Yuri Zhuk, Technical Director, **Hardide Plc**

Session: Paving the Way for Hydrogen-Based Clean Energy with Advanced Materials - Day 1 | 15.30 - 16.30 | Track 1 

Bob Zollo, Solution Architect Automotive and Energy Solutions, **Keysight Technologies Inc**

Session: EV Charging: What is Needed to Make it Accessible, Safe, Fast and Economical? - Day 2 | 15.25 - 16.20 | Track 1 

Conference Agenda

— V E H I C L E —
ELECTRIFICATION
— E X P O —

Wednesday June 28th 2023 - Morning Sessions

	Battery Cells & Systems Expo - Track 1	Vehicle Electrification Expo - Track 2
10.00 am - 10.15 am	<p>Opening Address Bob Galyen, Founder and CEO, Galyen Energy</p>	<p>Opening Address Roger Atkins, Founder and Managing Director, Electric Vehicles Outlook</p>
10.15 am - 11.05 am	<p>Leadership Discussion: How Can Europe Overcome Growing EV and Battery Supply Chain Issues?</p> <ul style="list-style-type: none"> • Bob Galyen, Founder and CEO, Galyen Energy (MODERATOR) • Claire Spooner, Deputy Challenge Director, Faraday Battery Challenge, UKRI • Robert Stanek, Board Member and Senior Advisory, P3 • Ian Constance, CEO, Advanced Propulsion Centre UK • Emmanuel Eweka, CTO, AMTE Power 	<p>Hurdling the Sustainability, Cost, Range and Charging Barriers to EV Uptake</p> <ul style="list-style-type: none"> • Claire Miller, Mobility & Energy Advisor, formerly Director of Tech & Innovation, Octopus Electric Vehicles (MODERATOR) • James Court, CEO, EVA England • David Voxlin, Director of Sustainability & Behaviour Change, SKIM Group • Tarek Keskes, Energy Specialist, World Bank
11.30 am - 12.30 pm	<p>Battery Manufacturing Infrastructure: Gathering the Key Building Blocks</p> <ul style="list-style-type: none"> • Keri Goodwin, Chief Technologist, CPI (MODERATOR) • Laurent Petithuguenin, Managing Consultant, ICF • Gaius King, Resource Analyst, Fox Davies • Dr. Denis Pasero, Product Commercialisation Manager, Ilika Technologies • Aimee Hill, Head of Supply Chain, Green Lithium 	<p>EV Champions In Conversation: with Dr. Andy Palmer</p> <ul style="list-style-type: none"> • Dr. Andy Palmer, Chair, Inobat • Roger Atkins, Founder and Managing Director, Electric Vehicle Outlook
